

THE SECTION NEEDS YOUR HELP!!!

The Western Carolinas Section of the American Chemical Society urgently needs the help of each of its members in helping us recruit new Section Affiliate members. We would like to request that each member print out or copy the following invitation and present it to as many persons as possible who have an interest in chemistry:

AN INVITATION FOR YOU:

**You are invited to become an
AFFILIATE MEMBER**

Of the

Western Carolinas Section

Of the

American Chemical Society

The Western Carolinas Section of ACS realizes that not every one is able to become a regular member of ACS, but we want to provide a way for those interested in ACS to be able to benefit from the local Section's activities. Section information can be found on the section website at <http://membership.acs.org/w/wca>. This website provides information on our monthly meetings which usually include a dinner and a lecture on some particular area of chemistry. It also has information of interest to those of us working in the field of chemistry. In addition, we sponsor awards for outstanding high school teachers and college students within our Section area. ACS has a wealth of information available on a wide variety of topics.

We hope you will choose to accept our invitation and join us as a Section Affiliate member. To do so, just send your name, address and occupation along with \$6.00 annual dues to our Membership Chair, Dr. Lynn Deanhardt, Science Division, Lander University, Greenwood, SC 29649.
